## OBSERVATIONS

ON

THE EMIGRATION STATISTICS OF IRELAND  
FOR THE YEAR 1894.

TO HIS EXCELLENCY ROBERT OFFLEY ASHBURTON, BARON HOUGHTON,

K.C., &amp;c., &amp;c.,

LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

MAY IT PLEASE YOUR EXCELLENCY,

I have the honour to submit detailed Tables showing by ages and occupations the number of Emigrants from Ireland during the year 1894, with the ports at which they embarked, and their intended destinations.

The number of Emigrants who left Irish ports in 1894 was 35,959, a decrease of 12,287 Emigration from Irish Ports. as compared with 1893; the number of males being 15,363, or 7,736 less than in the previous year, and of females, 20,596, a decrease of 4,551.

Of the 35,959 Emigrants in 1894, 35,895 were natives of Ireland, and 64 were persons belonging to other countries.

Since the year 1857, in which year the Emigrants—natives of Ireland—amounted to 82,933, there has been a gradual decrease in the annual number, and that for last year is the lowest recorded since the collection of these Returns commenced in 1851. It represents a rate of 7·8 per 1,000 of the estimated population, which, with the exception of the rates for 1876-7-8, which it slightly exceeds, is the lowest rate for any of the years over which the Returns extend.

The following Table (I.) gives the number of Emigrants from each province in 1893 and 1894, by sexes, with the decrease in the latter year. Of the 35,895 persons—natives of Ireland—who left the country in 1894, 4,916, or 4·1 per 1,000 of the population of the Province in 1891, were from Leinster; 16,299, or 13·9 per 1,000, from Munster; 6,242, or 3·9 per 1,000, from Ulster; and 8,435, or 11·6 per 1,000, from Connaught—the total number being equal to 7·6 per 1,000 of the population of Ireland in 1891.

Comparing 1894 with 1893, Leinster exhibits a decrease of 1,405, Munster a decrease of 3,521, Ulster a decrease of 4,283, and Connaught a decrease of 3,042 emigrants.

The total number of Emigrants—natives of Ireland—who left Irish ports from the 1st of May, 1851 (the date at which the collection of these returns commenced), to the 31st of December, 1894, is 3,602,425,—1,895,677 males and 1,706,748 females. The number for each year is given in the following Table (II.), from which it appears that the highest number in any one year was 190,323 in 1852, the lowest 35,895 in 1894, and the second lowest, 37,587, in 1876. In the decade preceding the latter year (from 1886 to 1875), the average annual number of Emigrants was 74,667; in the decade, 1856 to 1865, the average number per annum amounted to 88,272, and in the four preceding years, from 1852 to 1855, the number averaged 148,985 annually. After 1876 the number increased steadily but slowly for three years to 38,503 in 1877, 41,124 in 1878, and 47,065 in 1879. In 1880 the number rose to 95,517, but it fell to 78,417 in 1881. In 1882, however, an increase of 10,719 took place, and there was a further increase in 1883, in which year the emigrants amounted to 108,724; then a decrease of 33,961 took place in 1884 compared with 1883, and a decrease of 13,829 in 1885 compared with 1884, followed by an increase of 1,101 in 1886, and a further increase of 19,733 in 1887, in which year the number was 82,923. Since 1887, as before stated, there has been a gradual annual decline to 35,895, the number for last year.

Number of  
Emigrants  
from each  
County and  
Province.

The succeeding Table (III.) is in continuation of one published annually for some years past, and gives the number and sex of the Emigrants from each county and province from the 1st of May, 1851, to the 31st of December, 1894. For purposes of comparison of the several counties and provinces the per-centages of emigrants to the population<sup>†</sup> is also shown.

From this Table it appears that during the above period 3,639,465 persons emigrated from Irish ports. Of these, 3,602,425 were natives of Ireland, and 37,040 were persons belonging to other countries. The former number (3,602,425) represents a proportion of 65·1 per cent. of the average population; Munster having contributed 1,249,726 persons, being equal to 85·9 per cent. of the average population of the province; Connacht, 542,847, or 62·9 per cent.; Ulster, 1,088,689, or 56·9 per cent.; and Leinster, 660,495, equivalent to 47·5 per cent. of its population.<sup>†</sup> In 110,968 instances the county from which the persons came was not specified in the returns; since 1876, however, this information has been given in every instance, with the exception of 53 cases in 1880.

† Calculated on an average of the Census Numbers for 1851, 1861, 1871, 1881, and 1891.

## EMIGRATION STATISTICS OF IRELAND, 1894.

## Ages of Emigrants.

The ages of the Emigrants are given by Provinces in the following Table (IV.), from which it appears that 83·1 per cent. of the persons who left Ireland in 1894 were between the ages of fifteen and thirty-five years, the percentage over that age being 9·0, and of children under fifteen years 7·9 : in 7 cases, the ages were unspecified. The corresponding percentages in 1893 for the three age-periods given above were 85·0, 7·0 and 8·0 respectively. The proportion of the Emigrants in 1893 who were from fifteen to thirty-five years of age was 83·2 ; in 1891 it was 82·5 ; in 1890, 81·0 ; in 1889, 79·7 ; in 1888, 80·1 ; in 1887, 79·8 ; in 1886, 78·1 ; in 1885, 75·2 ; in 1884, 70·5 ; in 1883, 67·9 ; in 1882, 74·8 ; in 1881, 76·0, and in 1880, 75·7 per cent.

## Ages of Emigrants.

On pages 8 and 9 will be found a Table showing the ages of persons who emigrated from each county, and of persons belonging to other countries who embarked at Irish ports, distinguishing the sexes and conjugal condition. The only quinquennial age-period is which the females greatly outnumbered the males are those between fifteen and twenty and between twenty and twenty-five, in the former of which the number of females was 4,577, and of males 1,892, and in the latter of which the number of females was 8,840 and of males, 5,427. The quinquennial period 20-25 years furnished the largest number of both male and female emigrants—being 39·7 per cent. of the entire number of emigrants.

## Conjugal condition.

Of the 15,363 males who emigrated, 1,752, or 11·4 per cent., were returned as married men or widowers, and of the 20,596 females enumerated, 2,710, or 13·2 per cent., were described as married or widowed. Of the 6,469 persons between the ages of 15 and 20 years, 7 only were married.

## Destinations of Emigrants.

Of the 33,985 natives of Ireland who emigrated in 1894, 34,308, or 95·6 per cent. went to the Colonies or to Foreign Countries; and 1,587, or 4·4 per cent., to Great Britain. The United States of America absorbed 33,096 or 92·3 per cent. of the number of native emigrants in 1894, compared with an average of 49,188, or 89·5 per cent., for the four preceding years. The number of emigrants to New Zealand, which had fallen from 322 in 1887 to 87 in 1893, rose to 90 in 1894, and to 126 in 1890, and also showed a small increase in 1891, when 145 persons left for that Colony, but fell to 101 in 1892 and to 94 in 1893 : in 1894, however, it rose again to 114. Emigration to Canada shows a decrease in 1894 compared with 1893, the numbers being 540 in 1894, and 372 in 1893. The emigrants to Australia numbered only 457 in 1894, against 511 in 1893, 1,216 in 1892, 1,821 in 1891, 2,338 in 1890, 3,008 in 1889, 3,110 in 1888, and 3,896 in 1887. Of the 101 persons who went to "Other Countries" last year, 6 went to France, 3 to other parts of Europe, 30 to Buenos Ayres, 68 to South Africa, 2 to India, and 2 to "South America."

Of the 33,985 emigrants to the United States in 1894, Munster contributed 15,303, Connaught 8,923, Ulster 5,199, and Leinster 4,371. Munster contributed also 203 of the 457 who left for Australia. Ulster furnished the largest contingent to Canada—365 out of a total of 540; Munster contributed 42 out of the 114 for New Zealand, Ulster furnishing 30.

As before stated, 1,587 persons left Ireland in 1894 with the intention of settling permanently in Great Britain; of these, 944 left for England or Wales, and 643 for Scotland, the averages for the four preceding years being 1,829 and 1,145, respectively. More than 66 per cent. of the number who went to England and Wales were Munster people,

and of the 643 who went to Scotland, no less than 563 were from the Province of Ulster, 256 of these being natives of the County of Antrim.

It may be well to add that the enumerators are instructed to make a return for each passenger ship which may sail from any port within their district, and that by "emigrant" is to be understood a person who leaves Ireland with the intention of settling elsewhere.
